But, only if he completes a long-term, rigorous reintegration program while he's still in prison.

Think Better, Live Free—a cognitive skills training program for juvenile and adult offenders developed by **FREEDOM FROM WITHIN** will dramatically improve a criminal's thinking and behavior. The truth is Johnny probably will be released from prison. 90% of all convicted criminals are released. But, how he returns to society depends on you. Socializing Johnny may be your best chance to protect yourself from becoming his next murder victim.
